

ABOUT GLAFRI

The Global Aluminium Foil Roller Initiative (GLAFRI) is the global association coordinating actions on sustainability in order to support foil market growth and promote innovative development.

Adopting a 'One Voice' approach, GLAFRI actively supports sustainability as THE answer to the growing demand and limited resources, as well as foil packaging being a solution provider to avoid food waste.

With foil consumption increasing in various regions worldwide, GLAFRI is also working to support that foil market growth through regional actions. Sharing best practices on foil promotion and innovation, advising on further enhancements for recovery/recycling and communicating the foil benefits in technical applications.

Through this philosophy GLAFRI aims to increase efficiencies for all members by sharing general foil 'marketing' costs and provide Members with global foil market analysis to assist these efforts.

WELCOME TO THE 6TH GLOBAL ALUMINIUM FOIL ROLLER CONFERENCE

The 6th Global Aluminium Foil Roller Conference, organised by the Global Aluminium Foil Roller Initiative (GLAFRI), will once again be providing an invaluable arena for many exciting and interesting debates, stimulated by a wide range of presentations on global issues facing the aluminium foil industry.

GLAFRI as an independent association, represents a growing membership. With currently 57 companies from 25 countries and 5 continents, this equates to 55% of global aluminium foil markets up to 200µm.

So, for all those attending, there will also be unprecedented networking opportunities with fellow aluminium foil manufacturers worldwide.

GLAFRI's Board members look forward to your attending and conveys their appreciation to all sponsors and speakers for making this event possible.
