ABOUT GLAFRI

The Global Aluminium Foil Roller Initiative (GLAFRI) is the global association coordinating actions on sustainability in order to support foil market growth and promote innovative development.

Adopting a 'One Voice' approach, GLAFRI actively supports sustainability as THE answer to the growing demand and limited resources, as well as foil packaging being a solution provider to avoid food waste.

With foil consumption increasing in various regions worldwide, GLAFRI is also working to support that foil market growth through regional actions. Sharing best practices on foil promotion and innovation, advising on further enhancements for recovery/ recycling and communicating the foil benefits in technical applications.

Through this philosophy GLAFRI aims to increase efficiencies for all members by sharing general foil 'marketing' costs and provide Members with global foil market analysis to assists these efforts.
